Subject: RE: GenX information

Rick and Jim,

I just spoke with Andrew Hartten who currently is in a meeting. Andrew expressed some apprehension about our proposed phone call today. Considering the investigations surrounding the Chemours Fayetteville facility, he would need to involve his counsel and probably a chemist as well. As an alternative, he is agreeable to our emailing him a list of our questions which he, his counsel and chemist could respond to. I can send him the list of questions you have already proposed. If there are any additional information we need, we can include that as well in the email. Thanks.

Roger

I would like to join you and Jim on the call with Andrew today.

Subject: GenX information

Rick,

Attached is a power point presentation on GenX. I think it may address some of the issues you had raised. See slides 27 and 28 for CAS info. Jim and I also plan to call Andrew Hartten today at 11:00. Feel free to join in or let us know if you have any additional questions. Thanks.

Roger
